

# Crowley Independent School District Annual Comprehensive Financial Report

Fiscal Year Ended June 30, 2024 // Crowley, Texas

Leon Fisher
Crowley ISD Chief Financial Officer

Crowley Independent School District is committed to being an excellent district, constantly improving and refining both instructional programs and managerial operations in the interest of effectiveness, productivity, transparency and economy.

The preparation of this report could not have been accomplished without the services of the entire staff of the finance department. In addition, the Board of Trustees should be commended for its continued support and leadership.

# CROWLEY INDEPENDENT SCHOOL DISTRICT

November 14, 2024

Citizens of Crowley Independent School District and Members of the Crowley ISD Board of Trustees Crowley Independent School District 1900 Crowley Pride Drive Fort Worth, Texas 76036

Dear Citizens and Members of the Board of Trustees:

The Annual Comprehensive Financial Report of the Crowley Independent School District (Crowley ISD), a public K-12 school district, for the year ended June 30, 2024 is hereby submitted. Responsibility for both the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures, rests with the District.

In our opinion, the data, as presented, is accurate in all material aspects; is presented in a manner designed to fairly set forth the financial position and results of operations of the District as measured by the financial activity of its various funds; and all disclosures necessary to enable the reader to gain the maximum understanding of the District's financial affairs have been included in this report.

Management's Discussion and Analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis to accompany the basic financial statements. MD&A complements this letter of transmittal and should be read in conjunction with it.

#### THE REPORTING ENTITY AND ITS SERVICES

The Crowley Independent School District is one of 1,219 public and charter school districts in the State of Texas. Crowley ISD covers approximately 54.6 square miles in the south-central portion of Tarrant County and approximately 4 square miles in the north central portion of Johnson County. The District's boundaries encompass the City of Crowley and portions of the cities of Fort Worth and Edgecliff Village along with many acres of ranch and farmland. The District is experiencing enrollment growth as well as increases in assessed valuations due to the new residential and commercial construction.

The District has a vibrant, diverse student population, an excellent array of programs, strong curriculum, access to an array of intellectual resources and taxpayers who support both growth and innovation. A dedicated School Board, a skilled administration and a professional, dedicated and resourceful staff, as well as an involved community, make Crowley ISD an educational district of choice. In 2023-2024, the District employed more than 2,000 professional and support personnel.

Crowley ISD is committed to excellence, constantly improving and refining both instructional programs and managerial operations in the interest of effectiveness, productivity, transparency and economy. Our standards for students and staff members are high, and we strive constantly to raise them higher. Our intent is to play a decisive role in ensuring the future success of the dynamic community we serve.

#### FINANCIAL INFORMATION

District management is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the District are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

Single Audit - As a recipient of state and federal financial assistance, the District also is responsible for ensuring that an adequate internal control structure is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control structure is subject to periodic evaluation by management of the District. As a part of the District's single audit, tests are made to determine the adequacy of the internal control structure, including that portion related to federal financial assistance programs, as well as to determine that the District has complied with applicable laws and regulations.

The results of the District's single audit for the fiscal year ended June 30, 2024 provided no instances of material weaknesses in the internal control structure or significant violations of applicable laws and regulations.

#### **Accounting System and Budgetary Control**

The school district's accounting records reflect generally accepted accounting principles, as promulgated by the Governmental Accounting Standards Board on governmental accounting in its 1998 Codification of Government Accounting and Financial Reporting Standards, and subsequent statements and interpretations. The District's accounting records for general governmental operations are maintained on a modified accrual basis as prescribed by the Texas Education Agency Financial Accountability System Resource Guide.

In developing and evaluating the District's accounting system, consideration is given to the adequacy of internal accounting structure. The internal accounting structure is designed to provide reasonable, but not absolute, assurance regarding: (1) the safeguarding of assets against loss from unauthorized use or disposition; and (2) the reliability of financial records for preparing financial statements and maintaining accountability for assets. All internal control evaluations occur within the above framework. We believe that the District's internal accounting structure adequately safeguards assets and provides reasonable assurance of proper recording of financial transactions.

Budgetary control is initiated at the onset when the Board of Trustees adopts the annual appropriated budget. To ensure budgetary compliance, the Texas Education Agency (TEA) and the District have established spending regulations and policies. For all administrators with line item or program responsibility, TEA regulations set the level of budgetary control at the major functional expenditure level. Budgetary control is more restrictive at the District level where administrators are held responsible for maintaining and managing their budgets at the detail line item level. All revisions at the function level are approved by the Board of Trustees.

### **Cash Management**

The District has a cash management program to maximize the use of the District's cash resources. The cash management policy of the District is to ensure the availability of cash to meet operational needs and to invest surplus cash in a manner to preserve and protect capital but also provide adequate liquidity and earn a market rate of return. Surplus cash on hand was either deposited in the District's depository bank, invested in one of two local government investment pools pursuant to the Interlocal Cooperation Act of 1989, or deposited in State and Local Government Securities (SLGS) as issued by the US Treasury Department.

Deposits with the depository bank were in accounts secured at the balance sheet date by FDIC coverage. The deposits were deemed collateralized under Texas Law and the Texas Education Agency.

The District complies with the School Depository Act by executing a depository agreement with a banking institution for a period of two fiscal years plus two optional two-year extensions. Local banks in the immediate surrounding area are given preference. Competitive proposals are taken with state law setting the general terms of the request for proposal.

#### **ACKNOWLEDGEMENTS**

The preparation of this report could not have been accomplished without the services of the entire staff of the finance department. In addition, the Board of Trustees should be commended for its continued support and leadership.

Respectfully submitted,

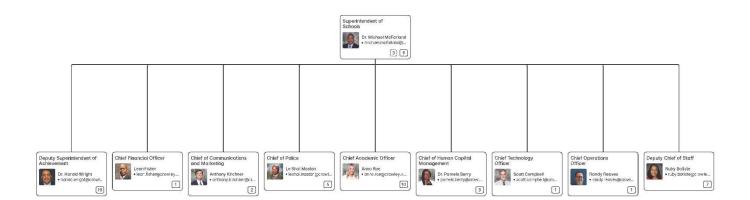

Dr. Michael D. McFarland

Di.M. Buff

Superintendent of Schools

#### **Independent Auditor's Report**

To the Board of Trustees of Crowley Independent School District Crowley, Texas

#### Report on the Audit of the Financial Statements

#### **Opinions**

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Crowley Independent School District (the District), as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the District, as of June 30, 2024, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### Responsibilities of Management for the Financial Statements

The District's management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

#### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and Government Auditing Standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit
  procedures that are appropriate in the circumstances, but not for the purpose of expressing an
  opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is
  expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

#### **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the required supplementary information as listed in the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information or provide any assurance.

The Board of Trustees of Crowley Independent School District

#### Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The combining and individual nonmajor fund financial statements, schedules – required by the Texas Education Agency, and Schedule of Expenditures of Federal Awards, as required by Title 2 U.S. Code of Federal Regulations, Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance) are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements, schedules – required by the Texas Education Agency, and the Schedule of Expenditures of Federal Awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements, schedules – required by the Texas Education Agency and the Schedule of Expenditures of Federal Awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

#### Other Information included in the Annual Comprehensive Financial Report (ACFR)

Management is responsible for the other information included in the ACFR. The other information comprises the introductory section, statistical section, and Schedule of Required Responses to Selected School FIRST Indicators but does not include the financial statements and our auditor's report thereon. Our opinions on the financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon. In connection with our audit of the financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

#### Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated November 14, 2024 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the District's internal control over financial reporting and compliance.

Weaver and Tidwell, L.L.P.

#### Management's Discussions and Analysis (Unaudited)

This section of the Crowley Independent School District (the "District") financial report presents our discussion and analysis of the District's financial performance for the year ended June 30, 2024. It should be read in conjunction with the District's financial statements.

#### **FINANCIAL HIGHLIGHTS**

Liabilities and deferred inflows of the District exceeded assets by \$13,551,493 (total net position) for governmental activities and assets exceeded liabilities by \$207,597 for business-type activities. Restricted net position consists of \$46,415,385 for debt service, and \$8,546,398 for grant funds.

At fiscal year end, the unassigned fund balance in the General Fund was \$33,099,029. Non-spendable fund balance for inventories and prepaids was \$526,508 and assigned for one-time, non-recurring instructional and extra-curricular expenses and District strategic initiatives was \$1.5 million. The District reported a decrease in fund balance in the general fund in the amount of \$2,046,842.

The fund balance in the Debt Service Fund increased to \$62,882,890, which provides for a debt service payment of \$58.5 million in the 2025 fiscal year. The Capital Projects Fund reported a fund balance of \$410,774,427.

#### **OVERVIEW OF THE FINANCIAL STATEMENTS**

This discussion and analysis are intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements are comprised of three components: 1) Management's Discussion and Analysis, 2) the basic financial statements, and 3) required supplementary information. The basic statements include two kinds of statements that present different views of the District.

The first two statements are Government-wide Financial Statements, the Statement of Net Position and the Statement of Activities, which provide both long-term and short-term information about the District's overall financial status.

The remaining statements are fund financial statements that report the District1s operations in more detail than the government-wide statements by providing information about the District1s most significant funds. The governmental funds statements tell how services were financed in the short term as well as what resources remain for future spending. They reflect the flow of current financial resources, and supply the basis for tax levies and the appropriations budget. Proprietary fund statements offer short and long-term financial information about the activities the government operates like businesses, such as self-insurance services. Fiduciary fund statements provide information about the financial relationships in which the District acts solely as a trustee or agent for the benefit of others, to whom the resources in question belong.

The financial statements also include notes that explain some of the information in the financial statements and provide additional data needed for full disclosure in the government-wide statements or the fund financial statements. The notes are followed by a section of required supplementary information and other supplementary information that further explains and supports the information in the basic financial statements. The section labeled other supplementary information contains data used by the Texas Education Agency (TEA) and other monitoring or regulatory agencies.

Government-wide Financial Statements. The government-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The Statement of Net Position includes all the District's assets, deferred outflows, liabilities, and deferred inflows. All the current period's revenues and expenses are accounted for in the Statement of Activities regardless of when cash is received or paid.

The government-wide statements report the District's net position and how the net position has changed. Net Position is the difference between the District's assets and deferred outflows, and liabilities and deferred inflows, and is one way to measure the District's financial health or position.

Over time, increases or decreases in the District's net position are an indicator of whether its financial health is improving or deteriorating, respectively.

To assess the overall health of the District, one needs to consider additional non-financial factors such as changes in the District's tax base, staffing patterns, enrollment and attendance.

**Governmental activities.** Most of the District's basic services are reported here, including instruction, instructional support, instructional leadership, school leadership, student transportation, food service, extracurricular activities, general administration, maintenance, and so forth. Property taxes, state foundation funds, tuition, fees, and state and federal grants are the major source of financing for these activities.

**Business-type activities**. The District charges a fee to "customers" to help cover all or most of the cost of services it provides for community education.

Fund financial statements. Fund financial statements provide a detailed short-term view of the most significant funds-not the District as a whole. Laws and contracts require the District to establish some funds while the District's administration establishes other funds to help control and manage money for particular purposes. The District's three kinds of funds use different accounting approaches.

**Governmental funds** - Most of the District's basic services are reported in governmental funds. These funds use modified accrual accounting (a method that measures the receipt and disbursement of cash and all other financial assets that can be readily converted to cash) and report balances that are available for future spending. The governmental fund statements provide a detailed short- term view of the District's general operations and the basic services it provides. We describe the differences between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds in reconciliation schedules following each of the fund financial statements.

**Proprietary funds** - The District maintains two proprietary fund types. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. Internal service funds are an accounting device used to accumulate and allocate costs internally among the District's various functions. The District uses internal service funds to account for worker's compensation. The internal service funds are included within governmental activities in the government-wide financial statements.

**Fiduciary funds** – The District is the custodian or fiduciary, for resources held for the benefit of others such as the student activities fund. Fiduciary activities are reported in a separate statement of fiduciary net position and a statement of changes in fiduciary net position. The resources accounted for in these funds are not available to finance the District's operations and are thus excluded from the District's aovernment-wide financial statements.

#### **GOVERNMENT-WIDE FINANCIAL ANALYSIS**

#### Statement of Net Position

Net position of the District's governmental and business-type activities increased from a deficit of \$39 million to a deficit of \$13 million. The increase in net position was primarily due to a significant increase in current assets, more specifically, cash and cash equivalents associated with receipt of the first tranche of 2023 Bond proceeds, in the amount of \$450 million. There is also an increase in the deferred outflows of resources, which is primarily related to TRS pension. Capital assets increased due to ongoing construction projects, as there are several Capital Projects in various stages of construction.

The District's statement of governmental activities reflects total revenues for the year ended June 30, 2024 of \$307.4 million, an increase of \$45,153,696, and the total cost of all programs and services of \$282.0 million, an increase of \$36.9 million. The net result is an increase in net position of \$25.4 million. The following impacted total expenses:

- Debt Service costs increased by approximately \$17.4 million from the previous year as a result of scheduled Debt Service payments.
- Plant Maintenance/Security/Data costs increased by approximately \$3 million as a result of CISD's continued investment in the maintenance of the physical plant, safety and security, and instructional technology at all CISD campuses.
- Costs associated with classroom instruction also increased approximately \$14 million as a result of the District's utilization of expiring ESSR funds to mitigate student learning loss from the Covid-19 pandemic.

As previously indicated, the cost of all governmental activities this year was \$282.0 million. However, as shown in the Statement of Activities, the amount that taxpayers ultimately financed for these activities was \$227 million because some of the costs were paid by those who directly benefited from the programs (\$2.6 million) and by grants and contributions (primarily state funding) not restricted to specific programs (\$52.2 million).

The District's statement of activities for business-type activities reflects charges for services of \$67,441. With community education costs of \$33,003, the net position for business-type activities increased \$34,438 for ending net position of \$207,597.

#### THE DISTRICT'S FUNDS

As the District completed the year, its governmental funds reported a combined fund balance of \$518.1 million, which is an increase of \$396.7 million from last year's total of \$121.4 million. The increase is driven by the increase in cash and cash equivalents as a result of the receipt of the first tranche of 2023 Bond proceeds. The General Fund balance decreased by \$2 million from \$37.2 to \$35.1 million from regular operations. This leaves the District with a healthy fund balance of 19% of current year expenditures in the General Fund. The fund balance in the Debt Service Fund increased from \$61.1 million to \$62.9 million as a result of a reduction in taxable values. The Capital Projects Fund increased from \$13.3 million to \$410.8 million as a result of receipt of 2023 Bond proceeds. Other Governmental Funds balance decreased \$553,645.

#### GENERAL FUND BUDGETARY HIGHLIGHTS

The General Fund revenue budget is comprised of three primary sources of revenue that have different drivers but culminate into one overarching General Fund Budget. The General Fund consists of revenue from Local Revenue, State Program Revenue, and Federal Program Revenue.

#### Local Revenue

The largest component of the General Fund Revenue budget usually comes from Local Sources of Revenue. These revenues are generated primarily from the levy of an ad-valorem tax on local property (residential, commercial, and personal) within the District footprint. However, in FY 2024 revenue estimates for the Local Sources of Revenue were reduced as a result of compression of the Maintenance and Operations (M/O) tax rate combined with refinement of frozen property tax values by the Tarrant Appraisal District. FY 2024 actual revenue for this category was \$80.1 million.

#### State Program Revenue

The second largest source of General Fund Revenue comes from State Program Revenue. State Program Revenue is primarily driven by state statutes relative to per pupil appropriations that are ultimately calculated based upon the number of days that a student is in class receiving instruction at his/or respective school of record. However, in keeping with the passage of House Bill 3 (HB3) of the 86<sup>th</sup> Texas Legislature in 2019, and its intention to reduce property taxes for the citizens of the State of Texas, the State would hold Districts harmless for losses in property value due to adherence to the Maximum compressed tax rate (MCR). As such, in FY 2024, with the decrease in tax rate of \$0.18 the State Program Revenue budget estimates were increased to accommodate for lost property tax revenue. FY 2024 actual revenue for this category was \$102,100,811.

#### Federal Program Revenue

The final category of General Fund Revenue is the Federal Program Revenue. Federal Program Revenues are driven by the number of students served who qualify for Medicaid eligible services through the School Health and Related Services (SHARS) program and the Medicaid Administrative Claiming (MAC) program. In FY 2024 the budget for Federal Program revenues was decreased from \$3.8 million to less than \$1 million. Actual revenue for this category of General Fund Revenue for FY 2024 was \$862,348.

At year end, actual General Fund expenditures were in line with the original budget of \$177 million.

#### **Capital Asset and Debt Administration**

**Capital Assets.** At the end of 2024, the District had \$594 million invested in a broad range of capital assets, including facilities and equipment for instruction, transportation, athletics, administration, and maintenance. Ending balances for the year were as follows:

Land	\$	25,509,575
Construction in progress		79,961,359
Right-to-use subscription assets		516151
Buildings and improvements		633182371
Equipment and vehicles		32294288
Accumulated depreciation/amortization	(	177,305,034)
Total	\$	594,158,710

More detailed information about the District's capital assets is presented in Note III. B. to the financial statements.

**Debt.** At year-end, the District had \$928 million in bonds outstanding versus \$515 million last year, an increase of \$413 million. More detailed information about the District's long-term liabilities is presented in Note III. C. to the financial statements.

#### Economic Factors and Next Year's Budgets and Rates

- The District's combined tax rate was \$1.2575 per \$100 of assessed property value in FY 2023-24. The combined tax rate will decrease to \$1.2552 for FY 2024-25 due to tax rate compression required by state funding legislation.
- The District's Average Daily Attendance in FY 2024 was 15,149 compared to 14,816 in the prior year. The District's enrollment in FY 2024 was 16,956 compared to 16,729 in the previous year.

With the expansion of the Chisholm Trail Parkway on the western edge of Crowley ISD, the District is closely monitoring the growth in the district to anticipate future needs. The District continues to work with a demographer to be proactive in the planning necessary to support the quality education that is expected for CISD.

#### CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, customers, investors and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the District's business office at Crowley Independent School District, 1900 Crowley Pride Drive, Fort Worth, TX 76134, (817) 297-5800.

**Exhibit C-2R** 

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities For the Fiscal Year Ended June 30, 2024

#### TOTAL NET CHANGE IN FUND BALANCE - GOVERNMENTAL FUNDS (C-2)

396,698,151

Internal service funds are used to charge the costs of certain activities to individual funds. The net income of internal service funds are reported with governmental activities, so the net effect is to increase net position.

1,307,011

Current year capital additions are expenditures in the fund financial statements but apprear as increases in capital assets in the government-wide financial statements.

70.024.130

Depreciation and amortization is not expensed in fund financial statements because it does not require the use of current financial resources. The effect of current year depreciation and amortization is to decrease net position.

(14,762,994)

Current year principal payments on non-current liabilities are expenditures in the fund financial statements, whereas they are reported as reductions of non-current liabilities in the government-wide financial statements. The net effect of current year principal paid on bonds payable and subscriptions payable is to increase net position.

20,599,269

Premiums on bonds payable are reported as other sources of funds in the fund financial statements when the bonds are issued. Deferred charges on refunding are presented as deferred outflows of resources on the government-wide statements and amortized over the life of the related debt. Amounts are reported net of amortization on the government-wide financial statements. The net effect of these items is to increase net position with amortization of of premium increasing net position by \$5,384,050 and deferred charges decreasing by \$1,478,888.

3.905.162

Current year issuance of bonds of \$433,485,000 and premium proceeds \$20,385,402 are other financing sources and uses to fund financial statements, whereas they are reported as reductions and additions of noncurrent liabilities in the government-wide financial statements. The net effect of current year bond and premium proceeds is a decrease in net position.

(453,870,402)

Current year issuance of subscriptions payable of \$516,151 are other sources and uses to fund financial statements, wheras they are reported as reductions and additions of noncurrent liabilities in the gov ernment-wide financial statements. The net effect of current year issuances of subscriptions payable is a decrease in net position.

(516,151)

Changes in the net pension and other post employment benefit liability, and related deferred inflows and outflows not recognized on the fund financial statements under the modified accrual basis are recognized on the accrual basis in the government-wide financial statements. The effect of the change is to decrease net position with the change due to pensions decreasing net position by \$8,550,562 and other post employment benefit increasing net position by \$5,529,079.

(3,021,483)

Revenue not recognized on the fund financial statements under the modified accrual basis are recognized on the accrual basis in the government-wide financial statements. The effect of the change in deferred outflow of resources is to decrease net position.

(401,687)

Interest is accrued on outstanding debt in the government-wide financial statements, whereas in the fund financial statements an interest expenditure is reported when due. The net effect of recording a decrease in accreted interest of \$5,497,082 and an increase in accrued interest of \$48,255 increased net position.

5,448,827

Notes to the Financial Statements

# Note 1. Summary of Significant Accounting Policies

# A. Reporting Entity

Crowley Independent School District (the District) is a public educational agency operating under the applicable laws and regulations of the State of Texas. The District prepares its basic financial statements in conformity with generally accepted accounting principles promulgated by the Governmental Accounting Standards Board (GASB) and it complies with the requirements of the appropriate version of Texas Education Agency's (TEA) Financial Accountability System Resource Guide (the Resource Guide) and the requirements of contracts and grants of agencies from which it receives funds.

The District is an independent political subdivision of the State of Texas governed by the Board of Trustees, a seven member group, elected by the public. It has the authority to make decisions, appoint administrators and managers, and significantly influence operations and is considered a primary government. As required by generally accepted accounting principles, these financial statements have been prepared based on considerations regarding the potential for inclusion of other entities, organizations or functions as part of the District's financial reporting entity. No other entities have been included in the District's reporting entity. Additionally, as the District is considered a primary government for financial reporting purposes, its activities are not considered a part of any other governmental or other type of reporting entity, which is in accordance with GASB Statement No. 14, The Financial Reporting Entity, as revised by GASB Statement No. 39 and GASB Statement No. 61.

#### B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information about the District as a whole. These statements include all activities of the primary government. The effect of interfund activity has been removed from these statements.

The statement of activities presents a comparison between direct expenses and program revenues for each segment of the District's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include charges paid by the recipients of goods or services offered by the programs and grants that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, such as taxes and investment earnings, are presented as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements. In the fund financial statements, the accounts of the District are organized on the basis of funds, each of which is considered a separate accounting entity.

The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund balance or net position, as appropriate, revenues, and expenditures or expenses, as appropriate. Following is a description of the various funds:

## **Governmental Funds**

Governmental funds are those funds through which most governmental functions are typically financed.

<u>General Fund</u>. The general fund is used to account for and report all financial resources not accounted for and reported in another fund. The general fund is considered a major fund for reporting purposes.

Notes to the Financial Statements

<u>Debt Service Fund</u>. The debt service fund is used to account for and report financial resources that are restricted, committed, or assigned to expenditures for principal and interest on all long-term debt of the District. The primary source of revenue for debt service is local property taxes. The debt service fund is considered a major fund for reporting purposes.

<u>Capital Projects Fund</u>. The capital projects fund is used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets. The capital projects fund is considered a major fund for reporting purposes.

<u>Other Governmental</u>. The other governmental funds include revenues that are used to account for the proceeds of specific revenue sources that are restricted or committed to expenditure for specific purposes other than debt service or capital projects. The restricted or committed proceeds of specific revenue sources comprise a substantial portion of the inflows of these special revenue funds. Most federal and some state financial assistance are accounted for in special revenue funds.

## **Proprietary Funds**

The proprietary funds account for services that are generally fully supported by user fees. The District has the following types of proprietary funds:

<u>Enterprise Funds</u>. The enterprise funds are used to account for operations that are financed and operated in a manner similar to private business enterprises. The funds are reported as "Business-type Activities" in the government-wide financial statements. The District uses this fund to account for its community educations programs because the community education programs are self-supporting and do not require subsidies from the general fund.

<u>Internal Service Funds</u>. The internal service funds are used to account for revenues and expenses related to services provided to parties inside the District. These funds facilitate distribution of support costs to the users of support services on a cost-reimbursement basis. Because the principal users of the internal services are the District's governmental activities, this fund type is included in the "Governmental Activities" column of the government-wide financial statements. The District has internal service funds for its worker's compensation and health self-insurance plans.

## **Fiduciary Funds**

<u>Custodial funds</u>. The District accounts for resources held for others in a custodial capacity in custodial funds. The funds are used to account for assets held by the District as a custodian for student and other organizations. These funds were previously reported as agency funds. The District reports additions to and deductions from custodial funds.

## C. Measurement Focus and Basis of Accounting

The government-wide statements and the proprietary fund statements are accounted for using the economic resources measurement focus and the accrual basis of accounting. With this measurement focus, all assets, deferred outflows of resources, liabilities, and deferred inflows of resources associated with the operations of these activities are included on the statement of net position. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenues as soon as all eligibility requirements imposed by the provider have been met.

Notes to the Financial Statements

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities are generally included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing resources) and decreases (i.e., expenditures and other financing uses) in fund balance.

The District utilizes the modified accrual basis of accounting in the governmental fund statements. Under the modified accrual basis of accounting, revenues are recognized in the accounting period when they are susceptible to accrual (i.e., when they are measurable and available). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues available if they are collected within 60 days of the end of the current period. Revenues susceptible to accrual include charges for services and interest on temporary investments.

Property taxes and interest associated with the current period are all considered to be susceptible to accrual and have been recognized as revenues of the current period. Other receipts and other taxes become measurable and available when cash is received by the government and are recognized as revenue at that time.

Grant funds are considered to be earned when all eligibility requirements have been met, (including time requirements) to the extent of expenditures made under the provisions of the grant. Accordingly, when such funds are received in advance, they are recorded as unearned revenues until earned. If balances have not been expended by the end of the project period, grantors sometimes require the District to refund all or part of the unused amount. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore to the extent the District has not complied with the rules and regulations governing the grants, refunds may be required and receivables subject to change.

Using the modified accrual basis of accounting, expenditures are recognized in the accounting period in which the liability is incurred, if measurable, except for interest on long-term debt, which is recognized when due.

The private purpose trust funds and custodial funds are reported using the economic resources measurement focus and the accrual basis of accounting. Reporting is oriented towards providing accountability for the sources, uses, and balances or resources held in trust for others, therefore, the additions and deductions in fiduciary balances are reported. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the funds' statements of net position. The funds' equity is segregated into restricted net position and unrestricted net position.

#### D. Assets, Liabilities, and Net Position or Fund Balance

# 1. Deposits and Investments

The District's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

The District reports all investments at fair value, except for money market investments and investment pools. Investment positions in external investment pools that meet specific criteria are reported using the pools' share price, which generally maintains a stable \$1 per share value. A board of directors comprised of local government officers, including participants of the pools, performs regulatory oversight to the external investment pools.

Notes to the Financial Statements

The District has adopted a written investment policy regarding the investment of its funds as defined in the Public Funds Investment Act, Chapter 2256, Texas Governmental Code. In summary, the District is authorized to invest in the following:

- Direct obligations of the U.S. Government
- Fully collateralized certificates of deposit and money market accounts
- Government investment pools and commercial paper

#### 2. Receivables

Transactions between funds that are representative of lending/borrowing arrangements outstanding at the end of the year are referred to as due to/from other funds.

Due from other governments is primarily comprised of amounts to be received related to federal and state funding sources, and is considered entirely collectible.

#### 3. Property Taxes

All taxes due to the District on real or personal property are payable at the Office of the Tax Assessor-Collector and may be paid at any time after the tax rolls for the year have been completed and approved, which is no later than October 1. Taxes are due by January 31, and all taxes not paid prior to this date are deemed delinquent and are subject to such penalty and interest. Property taxes attach as an enforceable lien on property as of January 1 each year. Taxes are levied on October 1 and are payable prior to the next February 1. District property tax revenues are recognized when collected.

#### 4. Inventories

The costs of governmental fund type inventories are recorded as expenditures when consumed (i.e., the consumption method). Inventory is recorded at average cost.

#### 5. Prepaid Items

Prepaid items indicate payments made by the District in the current year to provide services occurring in the subsequent fiscal year. The consumption approach provides for the initial reporting of the item as an asset while recognition of the expenditure when the item is actually used or consumed.

## 6. Capital Assets

Capital assets, which include land, buildings, furniture, and equipment, are reported in the applicable governmental activities columns in the government-wide financial statements. Capital assets are defined by the District as assets with an initial cost of more than \$5,000 and an estimated useful life in excess of three years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated acquisition value at the date of donation. Major outlays for capital assets and improvements are capitalized as projects are constructed.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. Capital assets are depreciated using the straight-line method over the following estimated useful lives:

Asset Description Useful Life	Estimated
Buildings and improvements	15-30 years
Furniture and equipment	3-15 years

Notes to the Financial Statements

#### 7. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position includes a separate section for deferred outflows of resources. Deferred outflows of resources represent a consumption of net assets that applies to a future period(s) and will not be recognized as an outflow of resources (expense/ expenditure) until then.

In addition to liabilities, the statement of net position includes a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net assets that applies to a future period(s) and will not be recognized as an inflow of resources (revenue) until that time.

#### 8. Pensions

The fiduciary net position of the Teacher Retirement System of Texas (TRS) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities and additions to/deductions from TRS fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

## 9. Other Post-Employment Benefits

The fiduciary net position of the Teacher Retirement System of Texas (TRS) TRS-Care Plan has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the Net OPEB Liability, deferred outflows of resources and deferred inflows of resources related to other postemployment benefits, OPEB expense, and information about assets, liabilities and additions to/deductions from TRS-Care's fiduciary net position. Benefit payments are recognized when due and payable in accordance with the benefit terms. There are no investments as this is a pay-as you-go plan and all cash is held in a cash account.

#### 10. Subscription-Based Information Technology Arrangements (SBITAs)

The District has noncancellable contracts with SBITA vendors for the right to use information technology (IT) software, alone or in combination with tangible capital assets (the underlying IT assets). The District recognizes a subscription liability, reported with long-term debt, and a right-to-use subscription asset (an intangible asset), reported with other capital assets, in the government-wide financial statements. The District recognizes subscription liabilities with an initial, individual value of \$5,000 or more.

At the commencement of an SBITA, the District initially measures the subscription liability at the present value of payments expected to be made during the subscription term. Subsequently, the subscription liability is reduced by the principal portion of SBITA payments made. The subscription asset is initially measured as the initial amount of the subscription liability, adjusted for SBITA payments made at or before the SBITA commencement date, plus certain initial implementation costs. Subsequently, the subscription asset is amortized on a straight-line basis over the shorter of the subscription term or the useful life of the underlying IT assets.

Key estimates and judgments related to SBITAs include how the District determines (1) the discount rate it uses to discount the expected subscription payments to present value, (2) subscription term, and (3) subscription payments.

- The District uses the interest rate charged by the SBITA vendor as the discount rate. When the interest rate charged by the SBITA vendor is not provided, the District generally uses its estimated incremental borrowing rate as the discount rate for SBITAs.
- The subscription term includes the noncancellable period of the SBITA.
- Subscription payments included in the measurement of the subscription liability are composed of fixed payments, variable payments fixed in substance or that depend on an index or a rate,

Notes to the Financial Statements

termination penalties if the District is reasonably certain to exercise such options, subscription contract incentives receivable from the SBITA vendor, and any other payments that are reasonably certain of being required based on an assessment of all relevant factors.

The District monitors changes in circumstances that would require a remeasurement of its SBITAs and will remeasure the subscription asset and liability if certain changes occur that are expected to significantly affect the amount of the subscription liability.

#### 11. Fund Balance

Fund balances in governmental funds are classified as follows:

<u>Nonspendable</u> – Represents amounts that cannot be spent because they are either not in spendable form (such as inventory or prepaid items) or legally required to remain intact (such as principal of a permanent fund).

<u>Restricted</u> – Represents amounts that are constrained by external parties, constitutional provisions, or enabling legislation.

<u>Committed</u> – Represents amounts that can only be used for a specific purpose because of a formal action by the District's Board of Trustees (the Board). Committed amounts cannot be used for any other purpose unless the Board removes those constraints by taking the same type of formal action. Commitments are approved through the adoption and amendment of the District's budget or a formal resolution stating the commitment. The commitment must be made prior to year end.

<u>Assigned</u> – Represents amounts which the District intends to use for a specific purpose, but that do not meet the criteria to be classified as restricted or committed. Intent may be stipulated by the Board or by an official or body to which the Board delegates the authority. The Board has retained this authority. Specific amounts that are not restricted or committed in a special revenue, capital projects, debt service, or permanent fund are assigned for purposes in accordance with the nature of their fund type or the fund's primary purpose. Assignments within the general fund convey that the intended use of those amounts is for a specific purpose that is narrower than the general purposes of the District itself. Assignments can be made at any time.

<u>Unassigned</u> – Represents amounts which are unconstrained in that they may be spent for any purpose. Only the general fund reports a positive unassigned fund balance. Other governmental funds might report a negative balance in this classification because of expenditures exceeding revenues for specific purposes for which amounts had been restricted, committed, or assigned.

When an expenditure is incurred for a purpose for which both restricted and unrestricted fund balance is available, the District considers restricted funds to have been spent first. When expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the District considers amounts to have been spent first out of committed, then assigned funds, and finally unassigned funds.

#### 12. Net Position

The District classifies net position into three components – net investment in capital assets; restricted; and unrestricted. These classifications are defined as follows:

<u>Net investment in capital assets</u> – Consists of capital assets, including restricted capital assets, net of accumulated depreciation and amortization, and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

Notes to the Financial Statements

<u>Restricted</u> – Consists of constraints placed on net position used through external constraints imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulation of other governments or constraints imposed by law through constitutional provisions or enabling legislation.

<u>Unrestricted</u> – Consists of net position that does not meet the definition of "restricted" or "invested in capital assets, net of related debt.

#### E. GASB Pronouncements implemented by the District

GASB Statement No. 99, Omnibus 2022 (GASB 99), enhances comparability in accounting and financial reporting and improves consistency of authoritative literature by addressing 1) practice issues that have been identified during implementation and application of certain GASB statements and 2) accounting and financial reporting for financial guarantees. The requirements related to extension of the use of LIBOR, accounting for SNAP distributions, disclosures of nonmonetary transactions, pledges of future revenues by pledging governments, clarification of certain provisions in Statement 34, as amended, and terminology updates related to Statement 53 and Statement 63 are effective upon issuance. The requirements related to leases were implemented in the District's fiscal year 2022 financial statements in conjunction with GASB 87. The requirements related to PPPs and SBITAs are effective for fiscal years beginning after June 15, 2022, and all reporting periods thereafter. These requirements for GASB 99 were implemented in the District's fiscal year 2023 financial statements in conjunction with GASB 94 and GASB 96. The requirements related to financial guarantees and the classification and reporting of derivative instruments within the scope of Statement 53 are effective for fiscal years beginning after June 15, 2023, and all reporting periods thereafter. These requirements for GASB 99 were implemented in the District's fiscal year 2024 financial statements with no impact to amounts previously reported.

GASB Statement No. 100, Accounting Changes and Error Corrections (GASB 100), enhances accounting and financial reporting requirements for accounting changes and error corrections to provide more understandable, reliable, relevant, consistent, and comparable information for making decisions or assessing accountability. This statement 1) defines accounting changes and corrections of errors; 2) prescribes the accounting and financial reporting for each type of accounting change and error corrections; and 3) clarifies required note disclosures. The requirements of this statement are effective for reporting periods beginning after June 15, 2023, with earlier application encouraged. GASB 100 was implemented in the District's fiscal year 2024 financial statements with no impact to amounts previously reported.

#### F. Estimates

The preparation of financial statements, in conformity with generally accepted accounting principles (GAAP), requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

The amount of state foundation revenue a school district earns for a year can and does vary until the time when final values for each of the factors in the formula becomes available. Availability can be as late as midway into the next fiscal year. It is reasonably possible that adjustments may be made to the foundation revenue by the state.

#### G. Data Control Codes

The data control codes refer to the account code structure prescribed by TEA in the Resource Guide. The TEA requires school districts to display these codes in the financial statements filed with the TEA in order to insure accuracy in building a statewide database for policy development and funding plans.

Notes to the Financial Statements

## **H. Future Accounting Pronouncements**

GASB Statement No. 101, Compensated Absences (GASB 101), improves the information needs of financial statements users by updating the recognition and measurement guidance for compensated absences under a unified model and amending certain previously required disclosures. The requirements of this statement are effective for reporting periods beginning after December 15, 2023, with earlier application encouraged. GASB 101 will be implemented in the District's fiscal year 2025 financial statements and the impact has not yet been determined.

GASB Statement No. 102, Certain Risk Disclosures (GASB 102), improves financial reporting by providing users of financial statements with essential information regarding certain concentrations of constraints and related events that have occurred or have begun to occur that make a government vulnerable to a substantial impact. The requirements of this statement are effective for reporting periods beginning after June 15, 2024, with earlier application encouraged. GASB 102 will be implemented in the District's fiscal year 2025 financial statements and the impact has not yet been determined.

GASB Statement No. 103, Financial Reporting Model Improvements (GASB 103), improves key components of the financial reporting model to enhance its effectiveness in providing information that is essential for decision making and assessing a government's accountability. This statement also addresses certain application issues. The requirements of this statement are effective for reporting periods beginning after June 15, 2025, with earlier application encouraged. GASB 103 will be implemented in the District's fiscal year 2026 financial statements and the impact has not yet been determined.

# Note 2. Stewardship, Compliance, and Accountability

Annual budgets are adopted on a basis consistent with GAAP for the General Fund, Debt Service Fund, and National School Breakfast and Lunch Program. The original budget is adopted by the District prior to the beginning of the year. The legal level of control is the function code stated in the approved budget. Appropriations lapse at the end of the year, excluding capital project budgets. Supplemental budget appropriations were made for the year.

#### Note 3. Detailed Notes on All Funds

#### A. Cash and Cash Equivalents

<u>Custodial Credit Risk – Deposits.</u> In the case of deposits, this is the risk that in the event of a bank failure the District's deposits may not be returned to it. The District's investment policy requires funds on deposit at the depository bank to be collateralized. The District's highest bank balance was during the month of May 2024 in which the combined checking and time deposits held with JPMorgan Chase Bank were entirely covered by FDIC insurance limits of \$250,000, with collateralized securities pledged of \$48,799,091, and letter of credits held in the District's name for \$25,000,000. The bank balance of the Districts deposits was \$26,126,739, of which \$25,876,739 exceeded FDIC insurance limits and was collateralized by securities pledged and letter of credit held in the District's name.

The Public Funds Investment Act (Government Code Chapter 2256) contains specific provisions in the areas of investment practices, management reports and establishment of appropriate policies. Among other things, it requires the District to adopt, implement, and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity, allowed based on the stated maturity date for the portfolio, (8) investment staff quality and capabilities, (9) and bid solicitation preferences for certificates of deposit.

Notes to the Financial Statements

At year end, the District's investments were as follows:

Cash and Cash Equivalents	Maturity	Amount	Rating
Lone Star Investment Pool	60 days	\$ 298,767,529	AAAm
MBIA Texas Class Investment Pool	111 days	6,335,972	AAAm
State and Local Government Series	365	200,000,000	N/A
Carrying Cash Deposits	N/A	22,080,314	N/A
Total cash and cash equivalents		\$ 527,183,815	• •

The Lone Star Investment Pool (the Pool) is organized in conformity with the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code, and the Public Funds Investment Act, Chapter 2256 of the Texas Government Code. The Pool is governed by an 11 member Board of Trustees, consisting of individuals representing entities participating in the Pool. The fair value of the District's position in the Pool is the same as the value of the Pool shares.

The MBIA Texas Investment Pool (the TexClass) is organized in conformity with the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code, and the Public Funds Investment Act, Chapter 2256 of the Texas Government Code. TexClass is governed by a 5 member Board of Trustees, consisting of individuals representing entities participating in the Pool. The fair value of the District's position in the Pool is the same as the value of the TexClass shares.

<u>Custodial Credit Risk – Investments</u>. For an investment, this is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. At year end, the District was not exposed to custodial credit risk. All of the investment pools are rated AAA or better by Standard and Poor's Rating Services as of year-end.

<u>Interest Rate Risk</u>. Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment the greater the sensitivity of its fair value to changes in market interest rates. By policy the District shall use final and weighted-average maturity limits and diversification to reduce exposure to changes in interest rates. One of the ways that the District manages its exposure to interest rate risk is by investing mainly in investment pools which purchase a combination of shorter term investments with an average maturity of less than 60 days thus reducing the interest rate risk. The District monitors the interest rate risk inherent in its portfolio by measuring the weighted average maturity of its portfolio.

<u>Concentration of Credit Risk</u>. The District's investment policy limits investments in money market mutual funds rated as to investment quality not less than AAA by Standard & Poor's.

There are no limits in investments for one issuer per instrument type allowed by the District's policy as long as the individual investment type is under maximum limits. The following maximum limits, by instrument, are established for the District's total portfolio:

1.	U.S. Treasury Securities	100%
2.	Agencies and instrumentalities	85%
3.	Certificate of Deposit	100%
4.	Repurchase Agreements	20%
5.	Money Market Mutual Funds	50%

Notes to the Financial Statements

Excluding flexible repurchase agreements for bond proceeds investments.

The Act also requires the District to have independent auditors perform test procedures related to investment practices as provided by the Act. The District is in substantial compliance with the requirements of the Act and with local policies.

The Lone Star and Texas CLASS investment pools are external investment pools measured at amortized cost. In order to meet the criteria to be recorded at amortized cost, investment pools must transact at a stable net asset value per share and maintain certain maturity, quality, liquidity and diversification requirements within the investment pool. Investment pools measured at amortized cost are exempt from the fair value reporting requirements of GASB Statement No. 72, Fair Value Measurement. Both Lone Star and TexClass maintain requirements that no more than 5% of their portfolios can be held with one issuer with the exception of the United States Government. Both also have one day notice periods and no maximum transaction amounts. Restrictions on redemptions may only be imposed in the event of a general suspension on trading in a major securities market, general banking moratorium or a state or federal emergency that impacts the liquidity of the portfolio.

# **B.** Capital Assets

Capital asset activity for the year ended June 30, 2024 was as follows:

		Beginning Balances			Transfers and Reclassifications Decreases		Ending Balances		
Capital assets, not being depreciated/amortized: Land	\$	25,509,575	\$ -	\$	-	\$	-	\$	25,509,575
Construction in progress		94,510,592	 68,451,288		(83,000,521)				79,961,359
Total capital assets not									
being depreciated/amortized		120,020,167	68,451,288		(83,000,521)		-		105,470,934
Other capital assets:									
Right-to-use subscription assets		-	516,151		-		-		516,151
Buildings and improvements		551,185,687	1,358,429		83,000,521		(2,362,266)		633,182,371
Furniture and equipment		30,233,760	 2,060,528		-		=		32,294,288
Total other capital assets		581,419,447	3,935,108		83,000,521		(2,362,266)		665,992,810
Less accumulated depreciation/amortization for:									
Right-to-use subscription assets		-	(172,050)		-		-		(172,050)
Buildings and improvements		(143,010,302)	(13,162,418)		(1,697,119)		-		(157,869,839)
Furniture and equipment		(19,531,738)	 (1,428,526)		1,697,119		=		(19,263,145)
Total accumulated depreciation/amortization		(162,542,040)	(14,762,994)		<u>-</u> .		<u> </u>		(177,305,034)
Capital assets, net	\$	538,897,574	\$ 57,623,402	\$	-	\$	(2,362,266)	\$	594,158,710

Notes to the Financial Statements

Depreciation and amortization was charged to governmental functions as follows:

		Governmental Activities	
11	Instruction	\$	13,443,015
12	Instructional resources/media services		18,938
23	School leadership		8,318
31	Guidance, counseling, and evaluation services		3,957
33	Health services		1,842
34	Student (pupil) transportation		248
35	Food services		186,967
36	Extracurricular activities		473,937
41	General administration		11,019
51	Plant maintenance and operations		490,471
52	Security and monitoring services		111,630
53	Data processing services		12,652
	Totals	\$	14,762,994

# C. Long-term Liabilities

The following is a summary of changes in the District's total governmental long-term liabilities for the year. In general, the District uses the debt service fund to liquidate governmental long-term liabilities.

Series	Interest Rate Range	Beginning Balances	Ending Additions Reductions Balances		Ending Balances	Amounts Due Within One Year
Governmental activities:						
Bonds payable	0%	\$ 305,194	¢	\$ 305,194	¢	¢
Series 1993 Refunding	0% 3-5.125%	\$ 305,194 774.812	\$ -	\$ 305,194	\$ -	\$ -
Series 2002 Refunding			-	0.700.000	774,812	-
Series 2013	2-4%	2,790,000	-	2,790,000	10,000,000	- 415 000
Series 2014 Refunding	2-4%	10,290,000	-	-	10,290,000	2,415,000
Series 2014B Refunding*	.4-4%	1,870,000	=	=	1,870,000	855,000
Series 2015A Refunding	2-5%	21,160,000	-	-	21,160,000	3,895,000
Series 2015B Refunding*	4-5%	28,439,999	=	=	28,439,999	725,000
Series 2015C	2-5%	4,835,000	-	-	4,835,000	575,000
Series 2016B Refunding*	2-5%	5,155,000	-	-	5,155,000	245,000
Series 2017	3.25-5%	87,060,000	-	-	87,060,000	-
Series 2018	4%	77,250,000	=	=	77,250,000	=
Series 2019 Refunding*	2-4%	52,740,000	-	3,035,000	49,705,000	2,745,000
Series 2019	2-5%	75,115,000	-	500,000	74,615,000	845,000
Series 2020	1.7 to 2.2%	141,559,863	-	165,922	141,393,941	15,031
Series 2021	3%	5,740,000	=	5,740,000	=	=
Series 2023	5%		433,485,000	7,885,000	425,600,000	500,000
		515,084,868	433,485,000	20,421,116	928,148,752	12,815,031
Other liabilities:						
Bond premiums		54,002,483	20,385,402	5,384,050	69,003,835	3,178,609
Subscriptions payable		-	516,151	178,153	337,998	166,019
Accreted interest		37,941,657	1,591,996	7,089,078	32,444,575	3,054,586
Net pension liability		57,880,312	18,588,617	-	76,468,929	-
OPEB liability		29,904,031		95,282	29,808,749	
Total government activities						
long-term liabilities		\$ 694,813,351	\$ 474,567,166	\$ 33,167,679	\$ 1,136,212,838	\$ 19,214,245

Notes to the Financial Statements

\*Advance refunding bonds that were issued to refund prior year outstanding debt before the callable date of the principal payments. At the end of the fiscal year 2024, there was outstanding debt that was refunded with advance refunding bonds of \$126,605,000 which is considered defeased and not outstanding debt on the Statement of Net Position.

In August 2023, the District issued Unlimited Tax Building Bonds, Series 2023 for \$433,485,000 in face value and a premium of \$20,385,402. The proceeds of the bonds will be used for construction and for payments of offering costs associated with the bonds.

Debt service requirements by fiscal year on the District's outstanding bonds were as follows:

Year Ending					Total
June 30,	Principal		 Interest		Requirements
2025 2026	\$	12,815,031 11,808,589	\$ 41,029,113 41,230,755	\$	53,844,144 53,039,344
2027		14,360,370	39,593,711		53,954,081
2028		16,825,062	37,705,870		54,530,932
2029		11,344,542	43,995,177		55,339,719
2030-2034		94,915,159	197,152,104		292,067,263
2035-2039		153,415,000	151,447,391		304,862,391
2040-2044		197,150,000	120,674,525		317,824,525
2045-2049		228,610,000	74,761,489		303,371,489
2050-2054		186,904,999	22,073,750		208,978,749
Totals	\$	928,148,752	\$ 769,663,885	\$	1,697,812,637

# Subscription Based Information Technology Arrangements (SBITA)

The District has entered into a SBITA that allow the right-to-use the SBITA vendor's information technology software over the subscription term. The District is required to make annual payments at its incremental borrowing rate or the interest rate stated or implied within the SBITAs. The SBITA rate, term and ending subscription liability are as follows:

	Interest Rate(s)	Liability at Commencemnet		SBITA Term in Years		Ending Balance	
Governmental activities Software	3.59%	\$	516,151		3	\$	337,998
Total governmental activities						\$	337,998

The future principal and interest SBITA payments as of fiscal year end are as follows:

Fiscal Year						
Ending	Principal		Interest		Total	
2025 2026	\$	166,019 171,979	\$	12,134 6,174	\$	178,153 178,153
Total governmental activities	\$	337,998	\$	337,998	\$	356,306

Notes to the Financial Statements

#### D. Interfund Transactions

The interfund balances and transfers were as of June 30, 2024:

Due to	Due from	 Amount	Purpose
	_		
General	Special revenue	\$ 5,162,298	Short term loans
General	Capital projects	207,260	Short term loans
Capital projects fund	Special revenue	73,668	Short term loans
Enterprise fund	General fund	207,597	Short term loans
Debt service	General fund	321,069	Short term loans
Capital projects fund	General fund	94,130	Short term loans
Special revenue	General fund	675,329	Short term loans
Total		\$ 6,741,351	

#### Note 4. Other Information

# A. Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the District purchases commercial insurance to cover general liabilities insurance. The District has not significantly reduced insurance coverage or had settlements which exceeded coverage amounts for the past three years.

## B. Workers' Compensation Insurance

During the fiscal year ended June 30, 2024, employees of the District were covered by a workers' compensation insurance plan (the plan). Contributions are made based upon rates established for the District's various types of employees.

The contract between the District and the third party administrator, Brown and Brown Lone Star Insurance Services, Inc. (BBLS), is renewable annually, and the terms of coverage and costs are included in the contractual provisions. The District is protected against unanticipated catastrophic individual loss by stop-loss coverage carried through a commercial insurer licensed to do business in Texas in accordance with the Texas Insurance Code. Stop-loss coverage is in effect for specific occurrences exceeding \$400,000 and an aggregate limit of \$1,000,000.

BBLS has performed an evaluation of claims submitted for incidents occurring prior to June 30, 2024, and has projected open claims and incurred but not reported claims will cost \$186,551. The following is a reconciliation of changes in the aggregate liabilities for claims included in Accounts Payable for the last five fiscal years:

		Beginning of		Current Year	Claims	End of	
_	Fiscal Year	Yed	Year Accrual Estimates		Payments	Year Accrual	
	2019	\$	238,986	99,842	227,617	\$	111,211
	2020		111,211	364,668	295,845		180,034
	2021		180,034	131,345	241,390		69,989
	2022		69,989	369,045	230,838		208,196
	2023		208,196	346,037	328,750		225,483
	2024		225,483	545,122	584,054		186,551

Notes to the Financial Statements

Amounts received or receivable from granting agencies are subject to audit and adjustment by grant or agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount of expenditures which may be disallowed by the grantor cannot be determined at this time although the District expects such amounts, if any, to be immaterial.

Liabilities are reported when it is probable that a loss has occurred, and the amount of the loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported. Claim liabilities are calculated considering the effects of inflation, recent claim settlement trends including frequency and amount of payouts, and other economic and social factors.

#### C. Other Liabilities

The Tax Reform Act of 1986 instituted certain arbitrage restrictions consisting of complex regulations with respect to issuance of tax-exempt bonds after August 31, 1986. Arbitrage regulations deal with the investment of tax-exempt bond proceeds at an interest yield greater than the interest yield paid to bondholders. Generally, all interest paid to bondholders can be retroactively rendered taxable if applicable rebates are not reported and paid to the Internal Revenue Service at least every five years for applicable bond issues. Accordingly, there is the risk that if such calculations are not performed or not performed correctly, it could result in a substantial liability to the District. The District engages an arbitrage consultant to perform the calculations in accordance with IRS rules and regulations. The District did not identify arbitrage liability as of June 30, 2024.

#### D. Defined Benefit Pension Plans

# **Plan Description**

The District participates in a cost-sharing multiple-employer defined benefit pension that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas (TRS) and is established and administered in accordance with the Texas Constitution, Article XVI, Section 67 and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms.

All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard work load and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

# **Pension Plan Fiduciary Net Position**

Detailed information about the TRS's fiduciary net position is available in a separately-issued Annual Comprehensive Financial Report (ACFR) that includes financial statements and required supplementary information. That report may be obtained on the Internet at <a href="http://www.trs.texas.gov/Pages/about\_archive\_acfr.aspx">http://www.trs.texas.gov/Pages/about\_archive\_acfr.aspx</a>; by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698; or by calling (512) 542-6592.

Notes to the Financial Statements

#### **Benefits Provided**

TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3% (multiplier) times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity, except for members who are grandfathered where the three highest annual salaries are used. The normal service retirement is at age 65 with 5 years of credited service or when the sum of the member's age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered in under a previous rule. There are no automatic postemployment benefit changes, including automatic cost of living adjustments (COLAs). Ad hoc postemployment benefit changes, including ad hoc COLAs can be granted by the Texas Legislature as previously noted in the Plan Description above.

Texas Government Code section 821.006 prohibits benefit improvements if, as a result of the particular action, the time required to amortize TRS' unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action.

#### **Contributions**

Contribution requirements are established or amended pursuant to Article XVI, section 67 of the Texas Constitution which requires the Texas legislature to establish a member contribution rate of not less than 6% of the member's annual compensation and a state contribution rate of not less than 6% and not more than 10% of the aggregate annual compensation paid to members of the system during the fiscal year.

Employee contribution rates are set in state statute, Texas Government Code 825.402. The TRS Pension Reform Bill (Senate Bill 12) of the 86th Texas Legislature amended Texas Government Code 825.402 for member contributions and increased employee and employer contribution rates for fiscal years 2020 thru 2025.

Rates for such plan fiscal years are as follows:

	Contribut	ion Rates	
	2024 2023		
		_	
Member	8.25%	8.00%	
Non-employer contributing entity (state)	8.25%	8.00%	
Employers (District)	8.25%	8.00%	

The contribution amounts for the District's fiscal year 2024 are as follows:

Employer contributions	\$ 5,722,325
Member contributions	11,036,560
NECE on-behalf contributions (State)	6,052,092

Contributors to the plan include members, employers and the State of Texas as the only non-employer contributing entity. The State is the employer for senior colleges, medical schools and state agencies including TRS. In each respective role, the State contributes to the plan in accordance with state statutes and the General Appropriations Act.

Notes to the Financial Statements

As the non-employer contributing entity for public education and junior colleges, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate times the aggregate annual compensation of all participating members of the pension trust fund during the fiscal year reduced by the amounts described below which are paid by the employers. Employers (public school, junior college, other entities or the State of Texas as the employer for senior universities and medical schools) are required to pay the employer contribution rate in the following instances:

- On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- During a new member's first 90 days of employment.
- When any or all of an employee's salary is paid by federal funding sources, a privately sponsored source, from non-educational and general, or local funds.
- When the employing district is a public junior college or junior college district, the employer shall
  contribute to the retirement system an amount equal to 50% of the state contribution rate for
  certain instructional or administrative employees; and 100% of the state contribution rate for all
  other employees.

In addition to the employer contributions listed above, there are two surcharges an employer is subject to:

- When employing a retiree of the Teacher Retirement System, the employer shall pay both the member contribution and the state contribution as an employment-after-retirement surcharge.
- Public education employer contribution all public schools, charter schools and regional education service centers must contribute 1.8% of the member's salary beginning in fiscal year 2023, gradually increasing to 2.0% in fiscal year 2025.

# Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pension

On June 30, 2024, the District reported a liability of \$76,468,929 for its proportionate share of the TRS's net pension liability. This liability reflects a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District are as follows:

The District's proportionate	
share of the collective net	
pension liability	\$ 76,468,929
State's proportionate share	
that is associated with the	
District	80,875,690
Total	\$ 157,344,619

The net pension liability was measured as of August 31, 2023 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as August 31, 2022 rolled forward to August 31, 2023. The District's proportion of the net pension liability was based on the District's contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2022 through August 31, 2023.

At the measurement date of August 31, 2023, the District's proportion of the collective net pension liability was 0.1113241% which was an increase of 0.0138291% from its proportion measured as of August 31, 2022.

Notes to the Financial Statements

For the fiscal year ended June 30, 2024, the District recognized pension expense of \$8,550,562 and revenue of \$12,211,529 for support provided by the State.

On June 30, 2024, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources		1	Deferred Inflows of Desources
Differences between expected and actual economic experience Changes in actuarial assumptions	\$	2,724,614 7,232,463	\$	925,955 1,769,949
Difference between projected and actual investment earnings Changes in proportion and difference between the employer's contributions and the		11,128,085		-
share of contributions Contributions paid to TRS subsequent		9,018,937		2,323,273
to the measurement date		5,284,692		<del>-</del>
Total	\$	35,388,791	\$	5,019,177

\$5,284,692 reported as deferred outflows of resources resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2025. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Years ending June 30,	Pension Expense Amount		
2025	\$	5,204,606	
2026		3,407,530	
2027		10,954,605	
2028		4,489,096	
2029		1,029,085	
Total	\$	25,084,922	

Notes to the Financial Statements

## **Actuarial Methods and Assumptions**

The actuarial valuation of the total pension liability was performed as of August 31, 2021. Update procedures were used to roll forward the total pension liability to August 31, 2022 and was determined using the following actuarial methods and assumptions:

Actuarial cost method
Asset valuation method
Single discount rate
Long-term expected rate of return
Municipal bond rate as of August 2021

Last year ending August 31 in projection period (100 years)
Inflation
Salary increases
Ad hoc post-employment benefit changes
Active mortality rates

Individual entry age normal

Fair value 7.00% 7.00%

4.13%. Source for the rate is the Fixed Income Market Data/Yield Curve/Date Municipal Bonds with 20 years to maturity that include only federally tax-exempt municipal bonds as reported in Fidelity Index's "20-Year Municipal GO AA Index

2122 2.30%

2.95% to 8.95% including inflation

None

The post-retirement mortality rates for healthy lives were based on the 2021 TRS of Texas Healthy Pensioners Mortality Tables, with full generational projection using the ultimate improvement rates from the most recently published projection scale ("U-MP"). The active mortality rates were based on the published PUB(2010) Mortality Tables for Teachers, below median, also with full generational mortality.

The actuarial methods and assumptions are primarily based on a study of actual experience for the four year period ending August 31, 2021 and adopted in July 2022.

## Discount Rate and Long-Term Expected Rate of Return

A single discount rate of 7.00% was used to measure the total pension liability. The single discount rate was based on the expected rate of return on pension plan investments of 7.00%. The projection of cash flows used to determine the single discount rate assumed that contributions from active members and those of the contributing employers and the non-employer contributing entity will be made at the rates set by the legislature in the 2019 session. It is assumed that future employer and state contributions will be 9.50 percent of payroll in fiscal year 2024 gradually increasing to 9.56 percent in fiscal year 2025 and thereafter. This includes all employer and state contributions for active and rehired retirees.

Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Notes to the Financial Statements

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric real rates of return for each major asset class included in TRS's target asset allocation as of August 31, 2023 are summarized below:

	Long-Term	Expected
	Expected	Contribution
	Geometric	to Long-Term
Target	Real Rate of	Portfolio
Allocation**	Return***	Rerturns
18.0%	4.0%	1.0%
13.0%	4.5%	0.9%
9.0%	4.8%	0.7%
14.0%	7.0%	1.5%
16.0%	2.5%	0.5%
0.0%	3.6%	-
5.0%	4.1%	0.2%
15.0%	4.9%	1.1%
6.0%	4.8%	0.4%
0.0%	4.4%	-
8.0%	4.5%	0.4%
2.0%	3.7%	0.0%
-6.0%	4.4%	-0.1%
		2.3%
		-0.9%
100.0%		8.0%
	Allocation**  18.0% 13.0% 9.0% 14.0%  16.0% 0.0% 5.0%  6.0% 0.0%  8.0%  2.0% -6.0%	Expected Geometric Real Rate of Return***  18.0%

<sup>\*</sup> Absolute return includes credit sensitive investments.

#### **Discount Rate Sensitivity Analysis**

The following table presents the District's proportionate share of the TRS net pension liability calculated using the discount rate of 7.00%, as well as what the District's proportionate share of the net pension liability would be if it was calculated using a discount rate that is 1% lower or 1% higher than the current rate:

	1% Decrease			Current	1	% Increase
	in Discount Rate		Dis	Discount Rate		n Discount
		(6.00%)	(7.00%)		Rate (8.00%)	
The District's proportionate share of						
the net pension liability	\$	114,325,283	\$	76,468,929	\$	44,991,350

<sup>\*\*</sup> Target allocations are based on the FY 2023 policy model

<sup>\*\*\*</sup>Capital Market Assumptions come from Aon Hew itt (as of 6/30/2023)

<sup>\*\*\*\*</sup> The volatility drag results from the conversation betw een arithmetic and geometric mean returns

Notes to the Financial Statements

## Change of Assumptions Since the Prior Measurement Date

The actuarial assumptions and methods are the same as used in the determination of the prior year's net pension liability.

# Change of Benefit Terms Since the Prior Measurement Date

The Texas 2023 Legislature passed legislation that provides a one-time stipend to certain retired teachers. The stipend was paid to retirees beginning in September of 2023. The Legislature appropriated funds to pay for this one-time stipend so there will be no impact on the Net Pension Liability of TRS. In addition, the Legislature also provided for a cost of living adjustment (COLA) to retirees which was approved during the November 2023 election which was paid January 2024. Therefore, this contingent liability was not reflected as of measurement period ending August 31, 2023.

## E. Defined Other Post-Employment Benefit Plan

## **Plan Description**

The District participates in the Texas Public School Retired Employees Group Insurance Program (TRS-Care). It is a multiple-employer, cost-sharing defined Other Postemployment Benefit (OPEB) plan that has a special funding situation. TRS-Care was established in 1986 by the Texas Legislature and is administered through a trust by the Teacher Retirement System of Texas (TRS) Board of Trustees in accordance with the Texas Insurance Code, Chapter 1575. The Board may adopt rules, plans, procedures and orders reasonably necessary to administer the program, including minimum benefits and financing standards.

# **OPEB Plan Fiduciary Net Position**

Detailed information about the TRS-Care's fiduciary net position is available in the separately-issued TRS Annual Comprehensive Financial Report that includes financial statements and required supplementary information. That report may be obtained on the Internet at <a href="http://www.trs.texas.gov/Pages/about archive acfr.aspx">http://www.trs.texas.gov/Pages/about archive acfr.aspx</a>; by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698; or by calling (512) 542-6592.

#### **Benefits Provided**

TRS-Care provides health insurance coverage to retirees from public schools, charter schools, regional education service centers and other educational districts who are members of the TRS pension plan. Optional dependent coverage is available for an additional fee.

Eligible non-Medicare retirees and their dependents may enroll in TRS-Care Standard, a high-deductible health plan. Eligible Medicare retirees and their dependents may enroll in the TRS-Care Medicare Advantage medical plan and the TRS-Care Medicare Rx prescription drug plan. To qualify for TRS-Care coverage, a retiree must have at least 10 years of service credit in the TRS pension system. There are no automatic post-employment benefit changes; including automatic cost of living adjustments (COLAs). The Board of Trustees of TRS is granted the authority to establish basic and optional group insurance coverage for participants as well as to amend benefit terms as needed under Chapter 1575.052.

The premium rates for retirees are reflected in the following table:

#### TRS-Care Plan Premium Rates

	Medicare		Non-medicare	
				_
Retiree or surviving spouse	\$	135	\$	200
Retiree and spouse		529		689
Retiree or surviving spouse and children		468		408
Retiree and family		1,020		999

Notes to the Financial Statements

#### **Contributions**

Contribution rates for the TRS-Care plan are established in state statute by the Texas Legislature, and there is no continuing obligation to provide benefits beyond each fiscal year. The TRS-Care plan is currently funded on a pay-as-you-go basis and is subject to change based on available funding. Funding for TRS-Care is provided by retiree premium contributions and contributions from the state, active employees, and school districts based upon public school district payroll. The TRS Board of trustees does not have the authority to set or amend contribution rates.

Texas Insurance Code, section 1575.202 establishes the State's contribution rate which is 1.25% of the employee's salary. Section 1575.203 establishes the active employee's rate which is 0.65% of pay. Section 1575.204 establishes an employer contribution rate of not less than 0.25% or not more than 0.75% of the salary of each active employee of the public or charter school. The actual employer contribution rate is prescribed by the Legislature in the General Appropriations Act.

Rates for such plan fiscal years are as follows:

	Contribution Rates				
	2024	2023			
Active employee	0.65%	0.65%			
Non-employer contribution entity (state)	1.25%	1.25%			
Employers/District	0.75%	0.75%			
Federal/private funding*	1.25%	1.25%			

<sup>\*</sup>Contributions paid from federal funds and private grants are remitted by the employer (District) and paid at the State rate.

The contribution amounts for the District's fiscal year 2024 are as follows:

District contributions	\$ 1,168,036
Member contributions	831,515
NECE on-behalf contributions (state)	1,409,415

In addition to the employer contributions listed above, there is an additional surcharge all TRS employers are subject to (regardless of whether or not they participate in the TRS Care OPEB program). When hiring a TRS retiree, employers are required to pay TRS-Care a monthly surcharge of \$535 per retiree.

The State of Texas also contributed \$717,261, \$638,480, and \$368,372 in 2024, 2023, and 2022, respectively, for on-behalf payments for Medicare Part D.

TRS-Care received a supplemental appropriation from the State of Texas as the Non-Employer Contributing Entity in the amount of \$21 million in fiscal year 2023 provided by Rider 14 of the Senate Bill GAA of the 87<sup>th</sup> Legislature. These amounts were re-appropriated from amounts received by the pension and TRS-Care funds in excess of the state's actual obligation and then transferred to TRS-Care.

Notes to the Financial Statements

# OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

On June 30, 2024, the District reported a liability of \$29,808,749 for its proportionate share of the TRS's net OPEB liability. This liability reflects a reduction for State OPEB support provided by the District. The amount recognized by the District as its proportionate share of the net OPEB liability, the related State support, and the total portion of the net OPEB liability that was associated with the District are as follows:

District's proportionate share of the collective net OPEB liability	\$ 29,808,749
State's proportionate share of the net OPEB liability associated with the District	 35,968,838
	 _
Total	\$ 65,777,587

The net OPEB liability was measured as of August 31, 2023 and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as August 31, 2022 rolled forward to August 31, 2023. The District's proportion of the net OPEB liability was based on the District's contributions to the OPEB plan relative to the contributions of all employers to the plan for the period September 1, 2022 through August 31, 2023.

At the measurement date of August 31, 2023, the employer's proportion of the collective net OPEB liability was 0.13465% which was an increase of 0.00976% from its proportion measured as of August 31, 2022.

For the fiscal year ended June 30, 2024, the District recognized net OPEB revenue of \$5,529,079 due to recognition of deferred inflows in excess of deferred outflows and current year expense. OPEB revenue of \$7,689,378 was recognized for support provided by the State.

On June 30, 2024, the District reported its proportionate share of the TRS' deferred outflows of resources and deferred inflows of resources related to other post-employment benefits from the following sources:

	Deferred Outflows of Resources		Deferred Inflows of Resources	
	Kesonices			
Differences between expected and actual economic experience	\$	1,348,620	\$	25,078,416
Changes of assumptions		4,068,677		18,252,688
Net difference between projected and actual earnings on				
pension plan investments		12,879		-
Changes in proportion and differences between District contributions				
and proportionate share of contributions (cost-sharing plan)		9,845,865		873,382
District contributions after measurement date		1,005,432		-
Totals	\$	16,281,473	\$	44,204,486

Notes to the Financial Statements

\$1,005,432 reported as deferred outflows of resources resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ended June 30, 2025. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Years Ending June 30,	
2025 2026 2027 2028 2029	\$ (6,810,532) (5,443,341) (3,592,399) (4,730,147) (3,904,269)
Thereafter	 (4,447,757)
Total	\$ (28,928,445)

# **Actuarial Methods and Assumptions**

The actuarial valuation of the total OPEB liability was performed as of August 31, 2022. Update procedures were used to roll forward the total OPEB liability to August 31, 2023.

The actuarial valuation of the OPEB plan offered through TRS-Care is similar to the actuarial valuation performed for the pension plan, except that the OPEB valuation is more complex. The following assumptions used for the valuation of the TRS-Care OPEB liability are identical to the assumptions employed in the August 31, 2022 TRS pension actuarial valuation that was rolled forward to August 31, 2023:

Demographic Assumptions	Economic Assumptions
Rates of mortality	General inflation
Rates of retirement	Wage Inflation
Rates of termination	
Rates of disability	

See Note 4D for detail on these assumptions. The demographic assumptions were developed in the experience study performed for TRS for the period ending August 31, 2021.

The active mortality rates were based on PUB(2010), Amount-Weighted, Below-Median Income, Teacher male and female tables (with a two-year set forward for males). The post-retirement mortality rates for healthy lives were based on the 2021 TRS of Texas Healthy Pensioner Mortality Tables. The rates were projected on a fully generational basis using the ultimate improvement rates from mortality projection scale MP-2021.

The initial medical trend rates were 7.75% for Medicare retirees and 7.00% for non-Medicare retirees. There was an initial prescription drug trend rate of 7.75% for all retirees. The initial trend rates decrease to an ultimate trend rate of 4.25% over a period of 12 years.

Notes to the Financial Statements

The following methods and additional assumptions were used in the TRS-Care OPEB valuation:

Actuarial cost method Individual entry age normal Inflation 4.13% Aging factors Based on plan specific experience Election rates Normal Retirement; 62% participation prior to age 65 and 25% after age 65. 30% of pre-65 retirees are assumed to discontinue coverage at age 65. **Expenses** Third-party administrative expenses related to the delivery of health care benefits are included in the age-adjusted claims costs. Ad hoc post-employment benefit changes None

#### Discount Rate

A single discount rate of 4.13% was used to measure the total OPEB liability at August 31, 2023. This was an increase of 0.22% in the discount rate since the August 31, 2022 measurement date. The plan is essentially a "pay-as-you-go" plan, and based on the assumption that contributions are made at the statutorily required rates, the OPEB plan's fiduciary net position was projected to not be able to make all future benefit payments to current plan members and therefore, the single discount rate is equal to the prevailing municipal bond rate. The source for the rate is the Fixed Income Market Data / Yield Curve / Data Municipal Bonds with 20 years to maturity that include only federally tax-exempt municipal bonds as reported in Fidelity Index's "20-Year Municipal GO AA Index" as of August 31, 2023.

# **Sensitivity Analysis of Rates**

#### Discount Rate

The following table presents the District's proportionate share of the TRS-Care net OPEB liability, as well as what the District's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that was 1% less than and 1% greater than the discount rate that was used (4.13%) in measuring the net OPEB liability.

	Current					
	19	% Decrease (3.13%)	Di	scount Rate (4.13%)	1	% Increase (5.13%)
District's proportionate share of the net OPEB liability					-	
to the Single Discount Rate Assumption	\$	35,108,500	\$	29,808,749	\$	25,484,028

Notes to the Financial Statements

#### Healthcare Cost Trend Rates

The following table presents the District's proportionate share of net OPEB liability using the assumed healthcare cost trend rate, as well as what the net OPEB liability would be if it were calculated using a trend rate that is 1% lower or 1% higher than the assumed health-care cost trend rate:

				Current		
			Hec	althcare Cost		
	19	1% Decrease Trend Rate			1	% Increase
District's proportionate share of the net OPEB liability						
to the Halthcare Cost Trend Rate Assumption	\$	24,546,013	\$	29,808,749	\$	36,579,277

# Change of Assumptions Since the Prior Measurement Date

The following were changes to the actuarial assumptions or other inputs that affected measurement of the total OPEB liability since the prior measurement period:

• The discount rate changed from 3.91% as of August 31, 2022 to 4.13% as of August 31, 2023, accompanied by revised demographic and economic assumptions based on the TRS experience study.

#### Change of Benefit Terms Since the Prior Measurement Date

There were no changes in benefit terms since the prior measurement date.

#### F. Shared Services Arrangements

The District is the fiscal agent for a Shared Services Arrangement (SSA) which provides a regional day school for the deaf to various member districts. All services are provided by the fiscal agent. According to guidance provided in TEA's Resource Guide, the District has accounted for the fiscal agent's activities of the SSA in a special revenue fund and will be accounted for using Model 3 in the SSA section of the Resource Guide.

#### Note 5. Subsequent Events

The District evaluated all events or transactions that occurred after June 30, 2024 through November 14, 2024, the date these financials were available to be issued noting the following:

In August 2024, the District issued approximately \$245 million in Unlimited Tax School Building Bonds for the construction, acquisition, renovation, and equipment of school facilities within the District.

Notes to the Required Supplementary Information

### Note 1. Budgetary Data

The Board of Trustees adopts an appropriated budget on a GAAP basis for the General Fund, Child Nutrition Fund, which is included in the Federally Funded Grant fund, and the Debt Service Fund. The District is required to present the adopted and final amended budgeted revenues and expenditures for each of these funds. The District compares the final amended budget to actual revenues and expenditures. The General Fund budget appears in Exhibit G-1 and the other two budgets are in Exhibit J-2 and J-3.

The overage in Fund 240 function 35 is due to the District's aggressive efforts to comply with the TDA required spend down plan and the timing of receipt of equipment received after budget amendment had been presented (in several cases shorter lead times than anticipated were realized).

The following procedures are followed in establishing the budgetary data:

- 1. Prior to June the District prepares a budget for the next succeeding fiscal period beginning July 1st. The operating budget includes proposed expenditures and the means of financing them.
- 2. A meeting of the Board is then called for the purpose of adopting the proposed budget. At least ten days public notice of the meeting must be given.
- 3. Prior to July 1, the budget is legally enacted through resolution by the Board. Once a budget is approved, it can only be amended at the function and fund level by approval of a majority of the members of the Board. Amendments are presented to the Board at its regular meetings. Each amendment is approved before the fact, is reflected in the official minutes of the Board, and is not made after fiscal year end. Because the District has a policy of careful budgetary control, several amendments were necessary during the year. Significant amendments were made to the following functional areas:

		Increase
Function	])	Decrease)
Instruction	\$	1,644,590
School leadership		(151,225)
Student (pupil) transportation		500,000
Plant maintenance and operations		(1,500,000)

- 4. Budgeted amounts are as amended by the Board. All budget appropriations lapse at period end.
- 5. The TEA requires these budgets to be filed with the Agency. The budget should not exceed expenditures in any functional expenditure category under TEA requirements. The original and final amended versions of these budgets are included in this report.

Notes to the Required Supplementary Information - Continued

### Note 2. Net Pension Liability and OPEB Liability

The following factors significantly affect trends in the amounts reported for the District's proportionate share of the net pension liability and OPEB liability:

### Changes in actuarial assumptions and inputs

			Net OPEB
	Net Pension	n Liability	Liability
-		Long-Term	
		Expected	
Measurement Date	Discount	Rate of	Discount
August 31,	Rate	Return	Rate
2023	7.000%	7.000%	4.130%
2022	7.000%	7.000%	3.910%
2021	7.250%	7.250%	1.950%
2020	7.250%	7.250%	2.330%
2019	7.250%	7.250%	2.630%
2018	6.907%	7.250%	3.690%
2017	8.000%	8.000%	3.420%
2016	8.000%	8.000%	
2015	8.000%	8.000%	
2014	8.000%	8.000%	

### Changes in demographic and economic assumptions

For measurement date August 31, 2018 – Net Pension Liability and Net OPEB Liability:

- Demographic assumptions including post-retirement mortality, termination rates, and rates of retirement and economic assumptions, including rates of salary increase for individual participants were updated based on the experience study performed for TRS for the period ending August 31, 2017.

### Changes in benefit terms

For measurement date August 31, 2023 – Net Pension Liability:

- The Texas 2023 Legislature passed legislation that provides a one-time stipend to certain retired teachers. The stipend was paid to retirees beginning in September of 2023. The Legislature appropriated funds to pay for this one-time stipend so there will be no impact on the Net Pension Liability of TRS. In addition, the Legislature also provided for a cost of living adjustment (COLA) to retirees which was approved during the November 2023 election which was paid January 2024.

For measurement date August 31, 2018 – Net OPEB Liability:

- Changes of benefit terms were made effective September 1, 2017 by the 85th Texas Legislature.

# Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

To the Board of Trustees of Crowley Independent School District

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States (Government Auditing Standards), the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Crowley Independent School District (the District) as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated November 14, 2024.

#### Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

#### **Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

The Board of Trustees of Crowley Independent School District

#### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

# Independent Auditor's Report on Compliance for Each Major Federal Program and on Internal Control over Compliance Required by Uniform Guidance

To the Board of Trustees of Crowley Independent School District

#### Report on Compliance for Each Major Federal Program

#### Opinion on Each Major Federal Program

We have audited Crowley Independent School District's (the District) compliance with the types of compliance requirements identified as subject to audit in the OMB Compliance Supplement that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2024. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2024.

#### Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States (Government Auditing Standards); and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the District's compliance with the compliance requirements referred to above.

#### Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the District's federal programs.

#### Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, Government Auditing Standards, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, Government Auditing Standards, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and
  design and perform audit procedures responsive to those risks. Such procedures include
  examining, on a test basis, evidence regarding the District's compliance with the compliance
  requirements referred to above and performing such other procedures as we considered
  necessary in the circumstances.
- Obtain an understanding of the District's internal control over compliance relevant to the audit
  in order to design audit procedures that are appropriate in the circumstances and to test and
  report on internal control over compliance in accordance with the Uniform Guidance, but not
  for the purpose of expressing an opinion on the effectiveness of the District's internal control
  over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

#### Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

The Board of Trustees
Crowley Independent School District

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Notes to Schedule of Expenditures of Federal Awards For the Fiscal Year Ended June 30, 2024

#### Note 1. Summary of Significant Accounting Policies

The accompanying schedule of expenditures of federal awards includes the federal grant activity of Crowley Independent School District and is presented on the modified accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of Single Audit Act Amendments of 1996 and Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of the basic financial statements. National School Lunch Program non-cash commodities were received and are valued at \$516,126.

#### Note 2. De Minimis Cost Rate

The District has elected not to use the 10% de minimis indirect cost rate as allowed under Uniform Guidance.

#### Note 3. Reconciliation to Basic Financial Statements

Presented below is a reconciliation of federal revenues:

Total expenditures of federal awards per Exhibit K-1	\$ 31,439,795
Additional federal revenues reported in governmental funds:	
School Health & Related Services	613,414
Total federal revenues per Exhibit C-2	\$ 32,053,209
